

# Lock-Chain Combination CityChain™ 1010

Art. no. 12042

Page 1 of 1

## Technology

- 9 mm hexagonal chain with fabric sleeve to prevent damage to the bicycle's paintwork
- The chain, the case as well as supporting elements of the locking mechanism are made of special hardened steel
- ABUS Plus cylinder for high protection against manipulations, e.g. picking
- Two keys are supplied with the lock, one LED-lighted
- Automatic cover for the keyhole against dirt and corrosion
- ABUS Code Card for additional and replacement key

## Operation and use

- Good protection at high theft risk
- Recommended for securing high quality bicycles
- The longer the chain, the easier the bicycle can be locked to a fixed object

## Transport

- Convenient compact transport by wrapping the chain around the seat post (for 85 cm length)
- For the protected transport we recommend, for example, the frame bags ST 2200 and ST 2250 (for 85 cm length)

## Tips

- This lock can be ordered keyed alike to other locks. This means several locks would match one key, respectively key code
- Very handy use because only one end of the chain must be locked

Top security for city and countryside
