

Steel-O-Flex Steel-O-Flex™ Raydo Pro 1460

Art. no. 59216

Page 1 of 1

Technology

- 20 mm overlapping steel shells protect the inner steel cable
- Synthetic coating to prevent damage to the bicycle's paintwork
- The steel shells and the supporting elements of the locking mechanism are made of special hardened steel
- Individually settable code
- Press'n Shine Function - the illuminated dials make setting the code easy even in the dark

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles

Transport

- TexKF Mini – Bracket with fabric sleeve, especially suitable for non-round frames with a diameter of 21-80 mm
- KF – KLICKfix® bracket with easy mounting at the saddle clamping bolt and efficient use

Tips

- Due to the steel shells, the Steel-O-Flex locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)
- The combination lock is very suited for the use by several people

Aesthetics – security – trendsetting
