- handy alternative to aluminum or plastic bottles
- can be comfortably worn as belt around your waist (with buckle) or fixed to your backpack
- suited only for storage or transport of water
- do not fill with boiling water (maximum temperature 60°C / 140°F)
- do not store water longer than required
- store only absolutely dry with valve completely open when not in use
- mechanical cleaning with brush and neutral soap
- can be combined with outdoor hand filters for water purification (e.g. Katadyn, MSR)
- can be combined with ORTLIEB drinking tube (art. code N43)

ATTENTION: Do not expose drinking water too long to heat. Change the water as often as possible. Fill with water only! Clean the valve regularly!

The waterbelt 2 litres comes with valve and dust cap.
