

Steel-O-Flex IVERA Steel-O-Flex™ 7200

Art. no. 55139

Page 1 of 1

Technology

- 22 mm overlapping steel shells protect the inner steel cable
- Functional, long-life and highly-flexible mesh sleeve to prevent damage to the bicycle's paintwork
- The steel shells, the case as well as supporting elements of the locking mechanism are made of special hardened steel
- Lock body with softcase coating to prevent damage to the bicycle's paintwork
- ABUS automatic cylinder with drill-protection and user-friendly reversible key
- Two keys are supplied with the lock

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles
- The longer the cable, the easier the bicycle can be locked to a fixed object

Transport

- Ivera RBU – bracket with flexible steel strap, suitable for different frame shapes with a diameter of 20-42 mm and with a preparation for the seat post clamp
- The bracket is also available as separate accessory

Tips

- Due to the steel shells, the Steel-O-Flex locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)
