SPECIFICATIONS:

- + Waterproof brief case with roll closure and QL3.1 mounting system
- + PVC-free reflective fabric
- + Increased visibility when hit by headlights due to highly visible reflective fabric in black
- + Single-handed mounting and removal of the bag
- + Mounting components compatible with racks having tubes up to 10 mm diameter
- + Flat mounting elements ensure plane reverse side of bag
- + Height and angle of bag individually adjustable
- + Lower mounting hook rotatable
- + Two strong 3M Scotchlite reflectors
- + Size ideal for 2 large office files, cell phone etc.
- + Suitable as laptop bag with padded ORTLIEB notebook sleeve size 13.3" or 15.4" (notebook sleeves available as optional accessories)
- + Inner compartments with pockets
- + Carrying handle and padded removable shoulder strap

Contents: Bag comes with inner compartment, padded shoulder strap and QL3.1 mounting components

Attention: remove shoulder strap and stow away inside bag prior to biking

Optional accessories: QL3.1 mounting set for rack diameters 12 to 14 mm, QL3.1 mounting set (e.g. for a second bike), Notebook Sleeve 10", 13.3" and 15.4"

Attention: Maximum load per bag or per side of carrier is 9 kg / 20 lbs. As the admissible load of carriers differ, note the maximum admissible load - (information is normally found on the carrier) - do not exceed the carrier load limit. We recommend to check-weigh packed bags before riding - reduce the load if necessary. This applies to rear and front carriers and also to lowriders mounted on the fork. Note that the use of bike panniers will significantly influence the riding properties of your bike.

Note: In order to meet standard IP64 (6=dustproof, 4=protected against splash water coming from all directions) the roll closure must be rolled at least 3-4 times.
