LIGHT WEIGHT TUBES

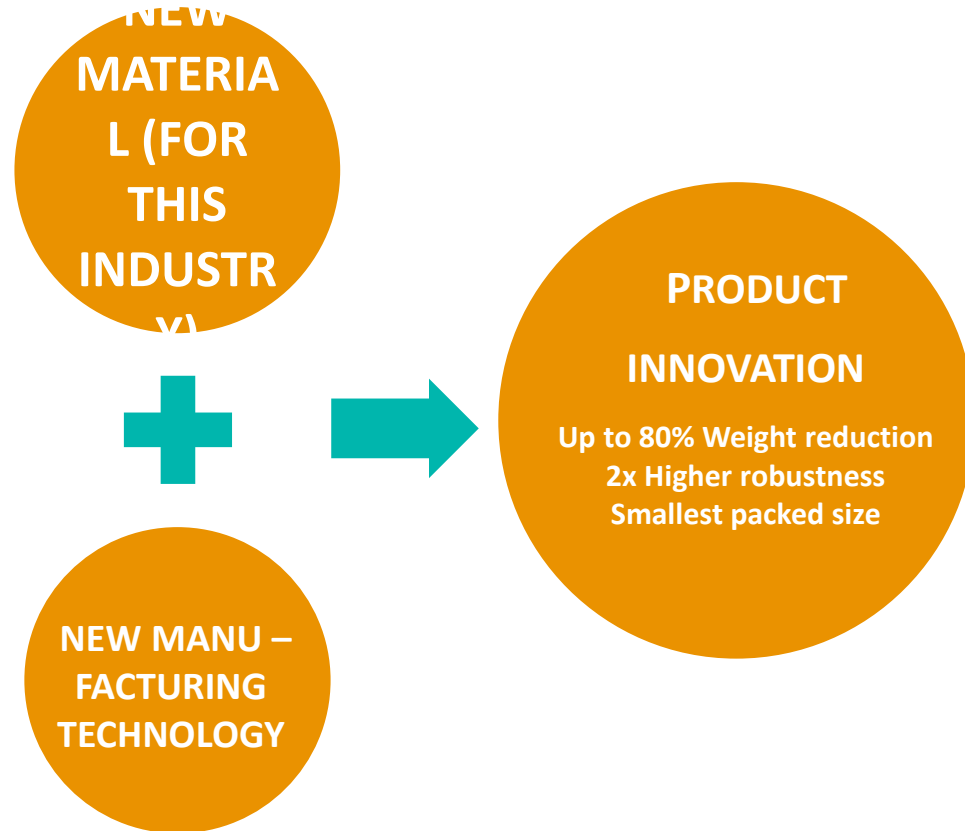

New generation of bicycle inner tubes

tubolito

The logo for Tubolito features the brand name in a bold, lowercase, sans-serif font. The two 'o's are stylized as wheels, each with a small orange arrow pointing towards the center. Below the brand name, the words 'LIGHT WEIGHT TUBES' are written in a smaller, uppercase, sans-serif font.

LIGHT WEIGHT TUBES

Date: September - 2018

- Reduction of seams to a minimum to ensure robustness
- Valve - made of polymer as well to ensure low weight
- Component supply and manufacturing within Europe
- Selected material (Thermoplastic elastomer) with very good aging and abrasion behavior

- Available in two valve types: Presta/Schrader (40mm)

Tubo-MTB vs S-Tubo-MTB

Tubo-MTB

S-Tubo-MTB

78% lighter
75% smaller
packed size

S-Tubo-MTB:

- Smallest packed size for a MTB inner tube ensured by a removeable valve
- Weight: 45 gram
- Equal robustness in puncture test as butyl inner tubes.

Product	Weight
26"	42 g
27.5"	44 g
